

FIRMENPROFIL

COMPANY PROFILE

Company Profile

From its modest beginnings over 50 years ago, Ackermann® has grown into an instrument company well placed to become a market leader in its product fields.

The name of Ackermann® is inseparably linked to surgical technology and remains at the forefront of tomorrow's technological break-throughs.

The Ackermann Group Worldwide

With more than five decades of experience in serving the community, Ackermann® is focused and striving towards a perfect environment of medical science and technology.

The medical equipment manufactured by Ackermann® results from a close collaboration between practicing surgeons and specialists, working together in concert, to establish the most effective directions for the company's continuous process of development.

Thus, Ackermann® is focused on several international markets and has successfully obtained a range of unique products. In addition to continuous R&D, the company prides itself on an extremely short product to market cycle, which has brought Ackermann® a significant market share in the fast changing area of endotechnology.

Ackermann Instrumente –
Quality made in Germany, Switzerland and USA.

The Ackermann Philosophy

CONCENTRATION ON THE ESSENTIALS

We have made it our mission to produce only products offering maximum benefit to patients, the attending physicians and customers. We are committed to deliver our goods in the best possible quality at consistently low prices. If we see an opportunity to reduce prices, we will implement it.

With our own brands, we have better control of quality and can offer our goods at reasonable prices. Our goal is to continuously offer top quality at lowest possible prices, making us a reliable partner to our customers.

Double digit growth rates since 2002 are proving us right.

The Ackermann Group Worldwide

All this is achieved through the consistent focus on the essentials:

- ▶ No Compromise in Quality
- ▶ Streamlined Sales Management
- ▶ Responsible Marketing

Today, Ackermann Instrumente's range of products covers several specialities, including:
